

International Baltic Sea Region conference
„Functional materials and nanotechnologies 2010”

Institute of Solid State Physics, University of Latvia,
Riga, 16-19 March 2010

1. Z.Irbe, L.Vecbiskena, L.Berzina-Cimdina. **Modification of Setting Properties of α -Tricalcium Phosphate Cements.** *International Baltic Sea Region conference “Functional materials and nanotechnologies 2010”, Book of abstracts*, Institute of Solid State Physics, University of Latvia, Riga, 2010, p. 59.
2. K.Salma, N.Borodajenko, L.Pluduma, V.Zalite, L.Berzina-Cimdina. **Preparation and sintering behaviour of β -tricalcium phosphate.** *International Baltic Sea Region conference “Functional materials and nanotechnologies 2010”, Book of abstracts*, Institute of Solid State Physics, University of Latvia, Riga, 2010, p. 60.
3. A.Stunda, L.Berzina-Cimdina. **Structure of phosphate based bioactive glasses.** *International Baltic Sea Region conference “Functional materials and nanotechnologies 2010”, Book of abstracts*, Institute of Solid State Physics, University of Latvia, Riga, 2010, p. 61.
4. V.Krilova. **Ionization of carboxylic cation-exchanger and sorption of proteins.** *International Baltic Sea Region conference “Functional materials and nanotechnologies 2010”, Book of abstracts*, Institute of Solid State Physics, University of Latvia, Riga, 2010, p. 163.
